

Mohawk Valley  
Kinship Project

## INFORMATION REQUEST FORM

Please email your completed form and all MVKP inquiries to [foundation@snpl.ca](mailto:foundation@snpl.ca)

The Mohawk Valley Kinship Project is a study of the Clanology of the Mohawks of Grand River and related Mohawks of the Bay of Quinte. Please note that while Clanology and Genealogy are related fields, they are not the same. Clanology as it relates to the MVKP is the study of the matrilineal lines of the female clan members of the Mohawk Nation that settled in the Haldimand Tract post-American Revolution. The MVKP study of these lines has a long-term vision to capture all information available in one place, to inform our library patrons of matrilineal ancestry connections to the Mohawk Valley homelands. Our research is ongoing and new information is always arriving to us. Please note that some adoption and paternal information is included in relation to fathers and husbands of the females of our study, but the MVKP scope is predominantly limited to the female line.
